

Setting ZKAccess as an exception in Avast Antivirus

1. Opened the Avast software;
2. Click **Settings**

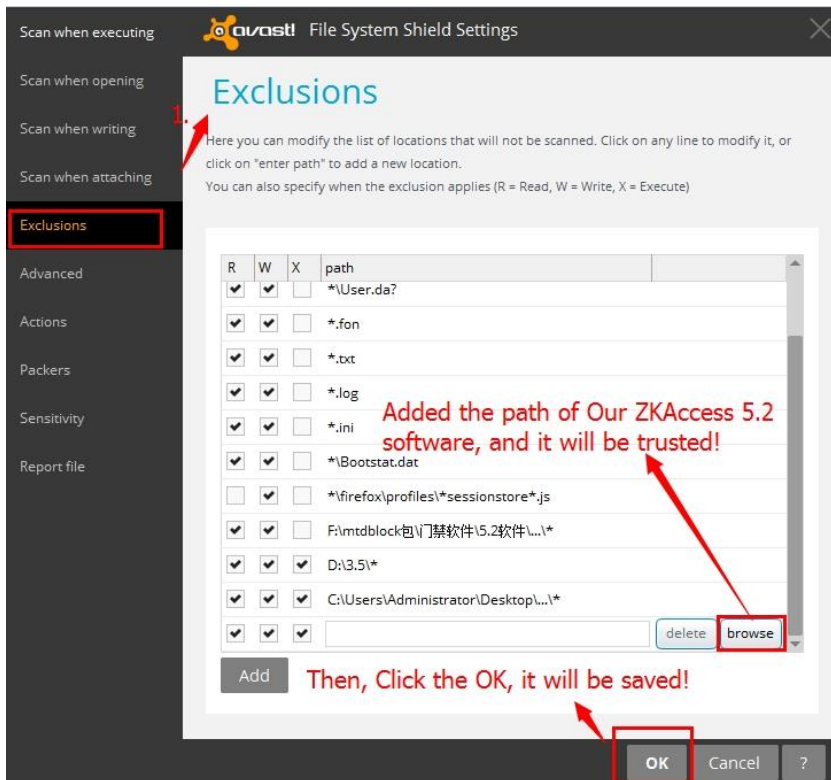

3. Click **Active Protection**

4. Click the gear of the File System Shield;

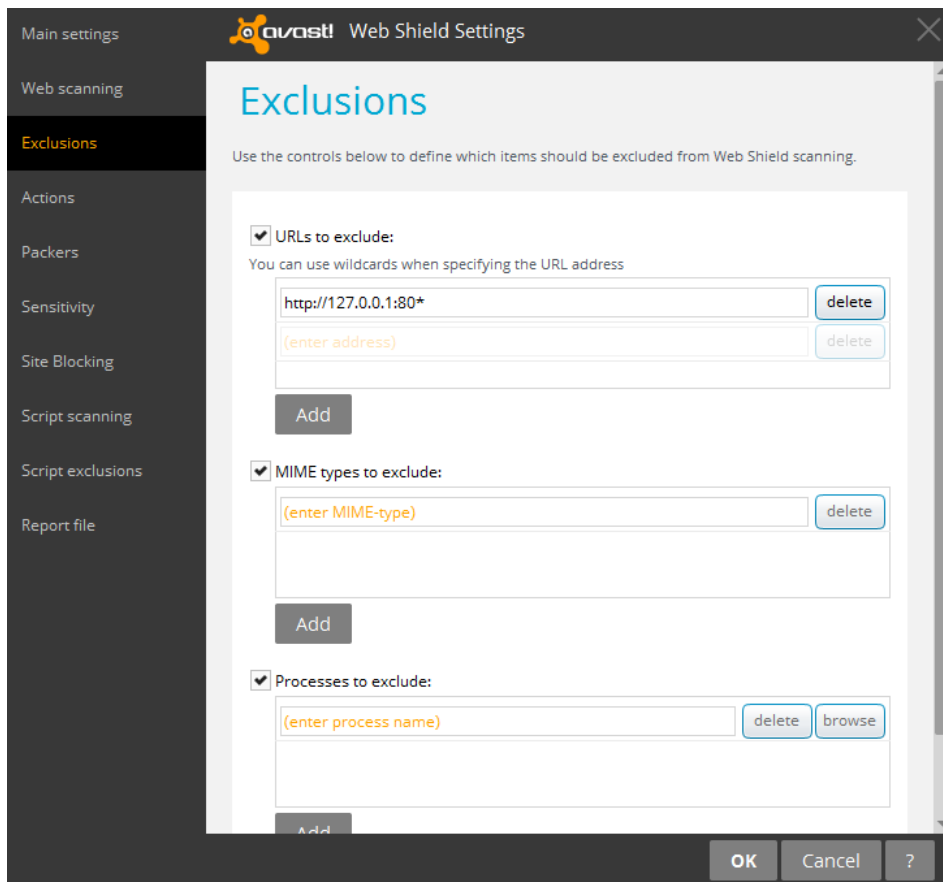

5. Click **Exclusions**
6. Click **browse**
7. Add the folder of the ZKAccess 5.2 software; Ex. (C:\Program Files (x86)\ZKTeco\ZKAccess)
8. Click OK to save the Exclusion

9. Click the gear of the Web Shield

10. Click **Exclusions**

11. Type `http://127.0.0.1:80` under URLs to exclude.

If you are using a different port than default, replace 80 with your active port.

12. Click OK to save the Exclusion
