

# ZKAccess3.5

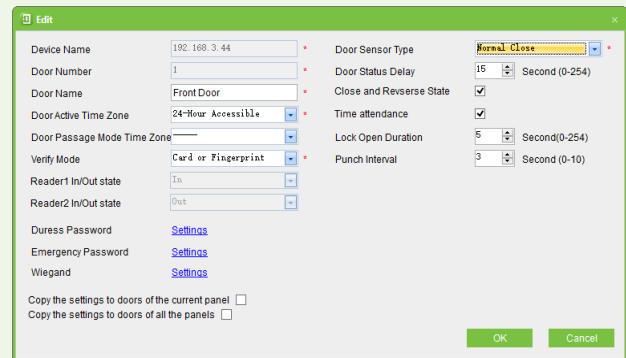

## Access Control Management Solution

ZKAccess 3.5 is designed to manage all of ZKTeco's standalone terminals and access control panels. The user friendly interface makes it easy to learn, install, operate and maintain the system. ZKACCESS 3.5 seamlessly syncs user and device information between the computer and the readers. Some of the major features of this software are:

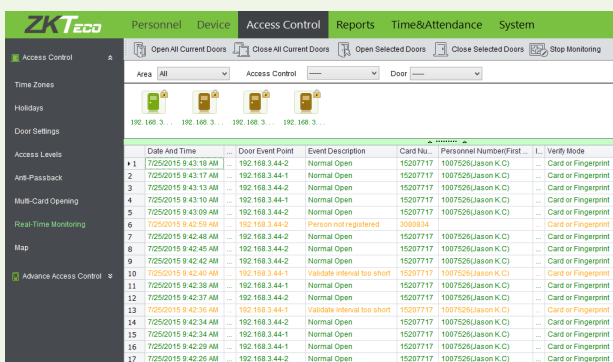

### Easy to configure and use

- Menu Driven Dashboard Display
- Embedded fingerprint registration tool for registering the templates and uploading to the terminals
- Quick Start Links for common operations

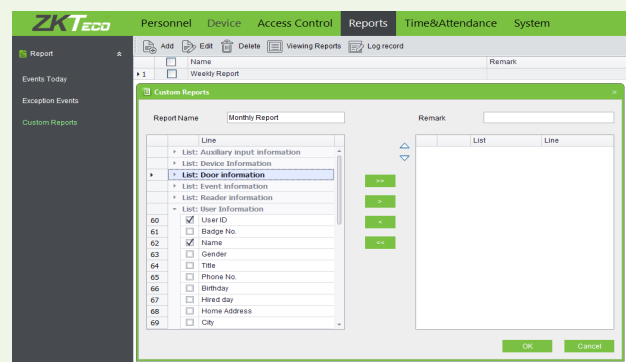

### Door Management

- Individual door configuration for unlock logic, Weigand format and request to exit mode
- Set Anti passback and interlocks between doors
- Door interlocks for mantrap control
- In and Out Reader Configuration
- Programming of duress password

### Real Time Monitoring

- Real time Event monitoring with door status icon
- Photo pop-ups of users and visual verification
- Remote Opening/closing of an individual or all doors

### Maps, reports and maintenance

- Import maps and floor plans for site specific door management
- Reports with customized search engine
- Multiple export format for event logs
- One click database backup
- All system changes are logged

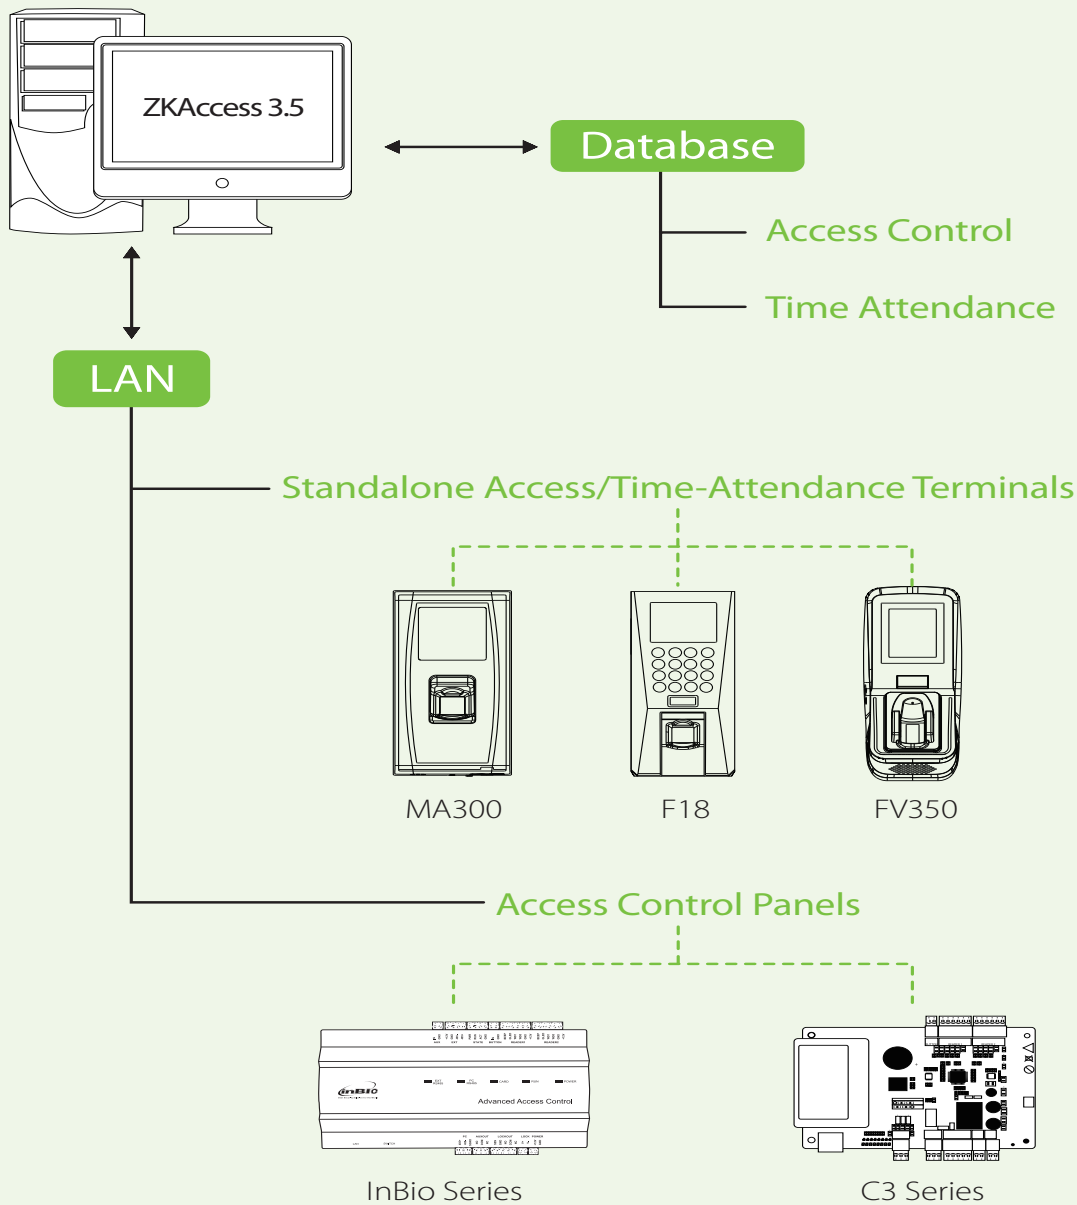

## Software Specifications:

- Database: Microsoft Access (Can also support SQL 2005 and above)
- System Architecture: Client Server with Thin Client
