

How to use the Personal Photo

Add Photo to the Personnel

Click [Edit] on the [Personnel—Personnel] interface.

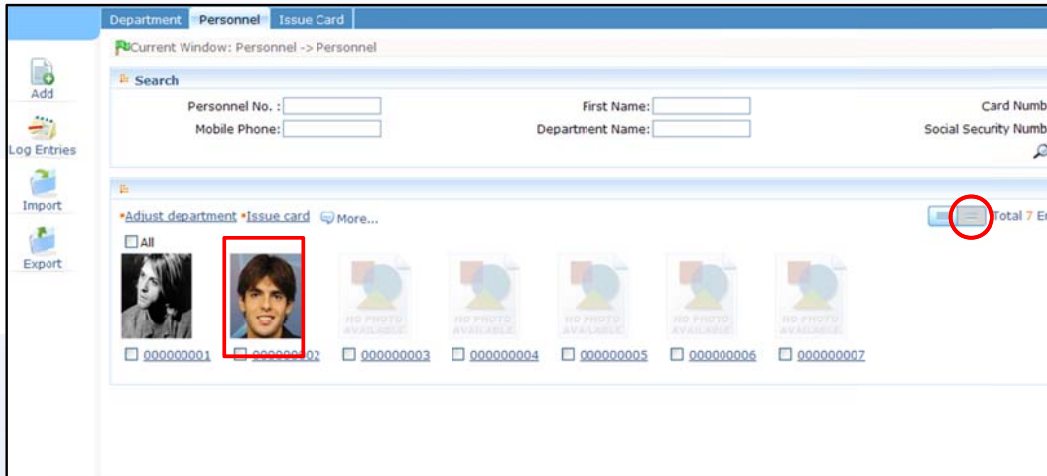

Select the photo for the specified personal and click [OK].

Change to the Show Photo mode to check the photo added.

ZK Access Quick Start Guide

Real-Time Monitoring with Personnel Photo displayed

A very important function of ZKAccess is Real-Time Monitoring. In the Real-Time Monitor interface, the Personnel Photo will display along with the event.

The status before events shows no records:

The photo will pop up on the bottom right corner of the records interface.
